

TESTED IN A CLIMATIC CHAMBER AT 30° C

THE VALUE-FOR-MONEY DISPOSABLE COVER

TUNDRA insulating properties are provided by an air cushion which – combined with the external reflecting surface – provides excellent insulation against excessive heat or cold. Waterproof, it does not permit stackability. Its high value-for-money makes TUNDRA the best choice for non-extreme situations.

TECHNICAL CHARACTERISTICS

Components:

Met. PE coupled to pluriball Polyethylene (ball 10x5).

Mechanical characteristics:

Tear resistance	Kg	10
Thermal conductivity	W/Mk	0,04
Weight	Gr/Mq.	120
Possible heat interval	°C.	-30/+60

Finished product weight:

Pallet cover (80x120)x50	gr.	430
Pallet cover (80x120)x100	gr.	700
Pallet cover (80x120)x150	gr.	970
Roll cover (70x80)x175	gr.	770
