

TESTED IN A CLIMATIC CHAMBER AT 30°

THE MOST PERFORMING DISPOSABLE COVER

TUNDRA+ is the latest addition to the ISOFORM disposable covers range: it is the best choice when you need high thermal protection and resistance but can not retrieve the cover. It is then recommended for products being very sensitive to thermal shocks. Its robust structure allows multiple re-uses.

TECNICAL CHARACTERISTICS

Layers

MET. PET + BUBBLE WRAP PE + MET. PET

Reflecting surfaces. Non-toxic product.

Components :

Internal / external surfaces: Met. PET
Padding: Bubble wrap PE

Mechanical characteristics :

Tear resistance	Kg	18
Thermal conductivity	W/Mk	0,03
Weight	Gr/Mq.	170
Possible heat interval	°C.	-30/+60

Finished product weight :

Pallet cover (80x120)x50	gr.	610
Pallet cover (80x120)x100	gr.	900
Pallet cover (80x120)x150	gr.	1400
Roll cover (70x80)x175	gr.	1100
